

Second International Conference on String Field Theory and Related Aspects

(Steklov Mathematical Institute, Moscow, Russia, April 12-19, 2009)

Program

April 13, Monday, Conference hall at the 9-th floor

10:00 - 10:30. Registration and Coffee

10:30 - 10:40. Opening.

Chairperson: Branko Dragovich

10:40 - 11:10. Irina Arefeva. *String Field Theory: from High Energy Physics to Cosmology*

11:20 - 12:00. Theodore Erler. *A Simple Analytic Solution for Tachyon Condensation*

12:00 - 14:00. **Lunch**

Chairperson:

14:00 - 14:40. Roman Gorbachev. *Pure Gauge Configurations and Solutions to Fermionic Superstring Field Theories Equations of Motion*

14:45 - 15:25. Tomohiko Takahashi. *Exploring Vacuum Structure around Identity Based Solutions*

15:30 - 16:00. **Coffee break**

16:00 - 16:25. Dmitry Grigoryev. *Pure Gauge Configurations and Tachyon Solutions to String Field Theories Equations of Motion, I*

16:30 - 16:55. Pavel Khromov. *Pure Gauge Configurations and Tachyon Solutions to String Field Theories Equations of Motion, II*

17:00 - 18:00. John Schwarz. *Superconformal Chern-Simons Theories, (on-line)*

18:00 - 20:30. **Welcome Party**
